## Wunderlich R 1200 S "Lightning"

*The most powerful Boxer is transformed into an even more breathtaking version: "Lightning". This new athlete from the Wunderlich stable can be compared to a lightning bolt in every sense: The deep sounding ZARD "FlatBooster" exhaust system squeezes out an impressive additional 6 horsepower and up to 5 NM of additional torque in the upper RPM range while delivering surprising improvements to midrange smoothness and spontaneity. This S offers perfectly matched technical and optical performance: The conversion to a tapered handlebar offers substantially improved control over the machine and the rider also benefits from enhanced ergonomics. Now the S can be joyfully thrown into any corner with the greatest of ease and the rider can arrive at distant destinations with minimal fatigue. Safety measures, such as the carbon fibre valve cover guards, provided increase passive safety and offer protection even at extreme lean angles. With the "Lightning" we present our expertise in all matters "S". Naturally, all of these products can be fitted to any standard R1200 S without the need for complex modifications.*
